

Anthem™ EvoCycle®

Hybrid Smart Showering

THE BOLD LOOK
OF **KOHLER**®

Cycle Mode

Blend of Recirculated
and Fresh Water

Standard Mode

100% fresh water

Designed for you. Engineered for Earth.

Anthem™ EvoCycle® hybrid smart showering is an innovative dual-mode system offering comfort and conservation, uncompromised. **Standard Mode** delivers 100% fresh water from the handshower for rinsing. **Cycle Mode** sends recirculated water to the showerhead or rainhead for up to 80% water savings.*

How It Works:

1. The shower starts in Standard Mode, delivering 100% fresh water from the handshower.
2. Using the Anthem® digital control, the user switches to Cycle Mode and water flows from the showerhead or rainhead.
3. As the water drains, it is thoroughly filtered and collected in a concealed reservoir.
4. Filtered water is pumped up from the reservoir and blended with 0.5 gpm of heated fresh water to maintain your ideal temperature.
5. Blended water flows out of the showerhead or rainhead and the process continues.

*Up to 80% water savings is based on selection of a 2.5 gpm rainhead or showerhead and is achieved only while using Cycle Mode.

Sustainable Cleaning & Convenient Controls

Anthem™ EvoCycle® hybrid smart showering is engineered to stay clean and be easy to manage—no consumables required.

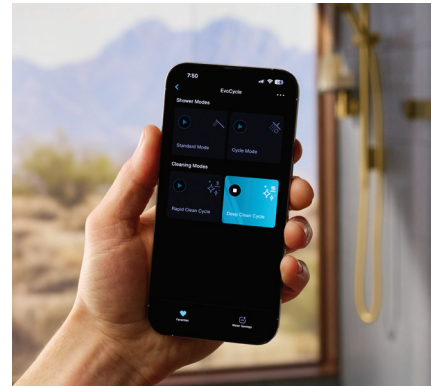

Sustainable Cleaning

Rapid Clean Ozonation

Rapid Clean five-minute ozonation uses only oxygen and 0.75 gallons of water; recommended after each shower.

Deep Clean Ozonation

Deep Clean 15-minute ozonation uses only oxygen and 0.75 gallons of water; recommended monthly.

Reusable Filter

A reusable fine-mesh filter is easily cleaned under warm water, or you can run it through the dishwasher for a more thorough clean.

Convenient Controls

Anthem EvoCycle Digital Control

Adjust temperature, switch between Standard Mode and Cycle Mode, and view water savings after each shower using the sleek digital control.

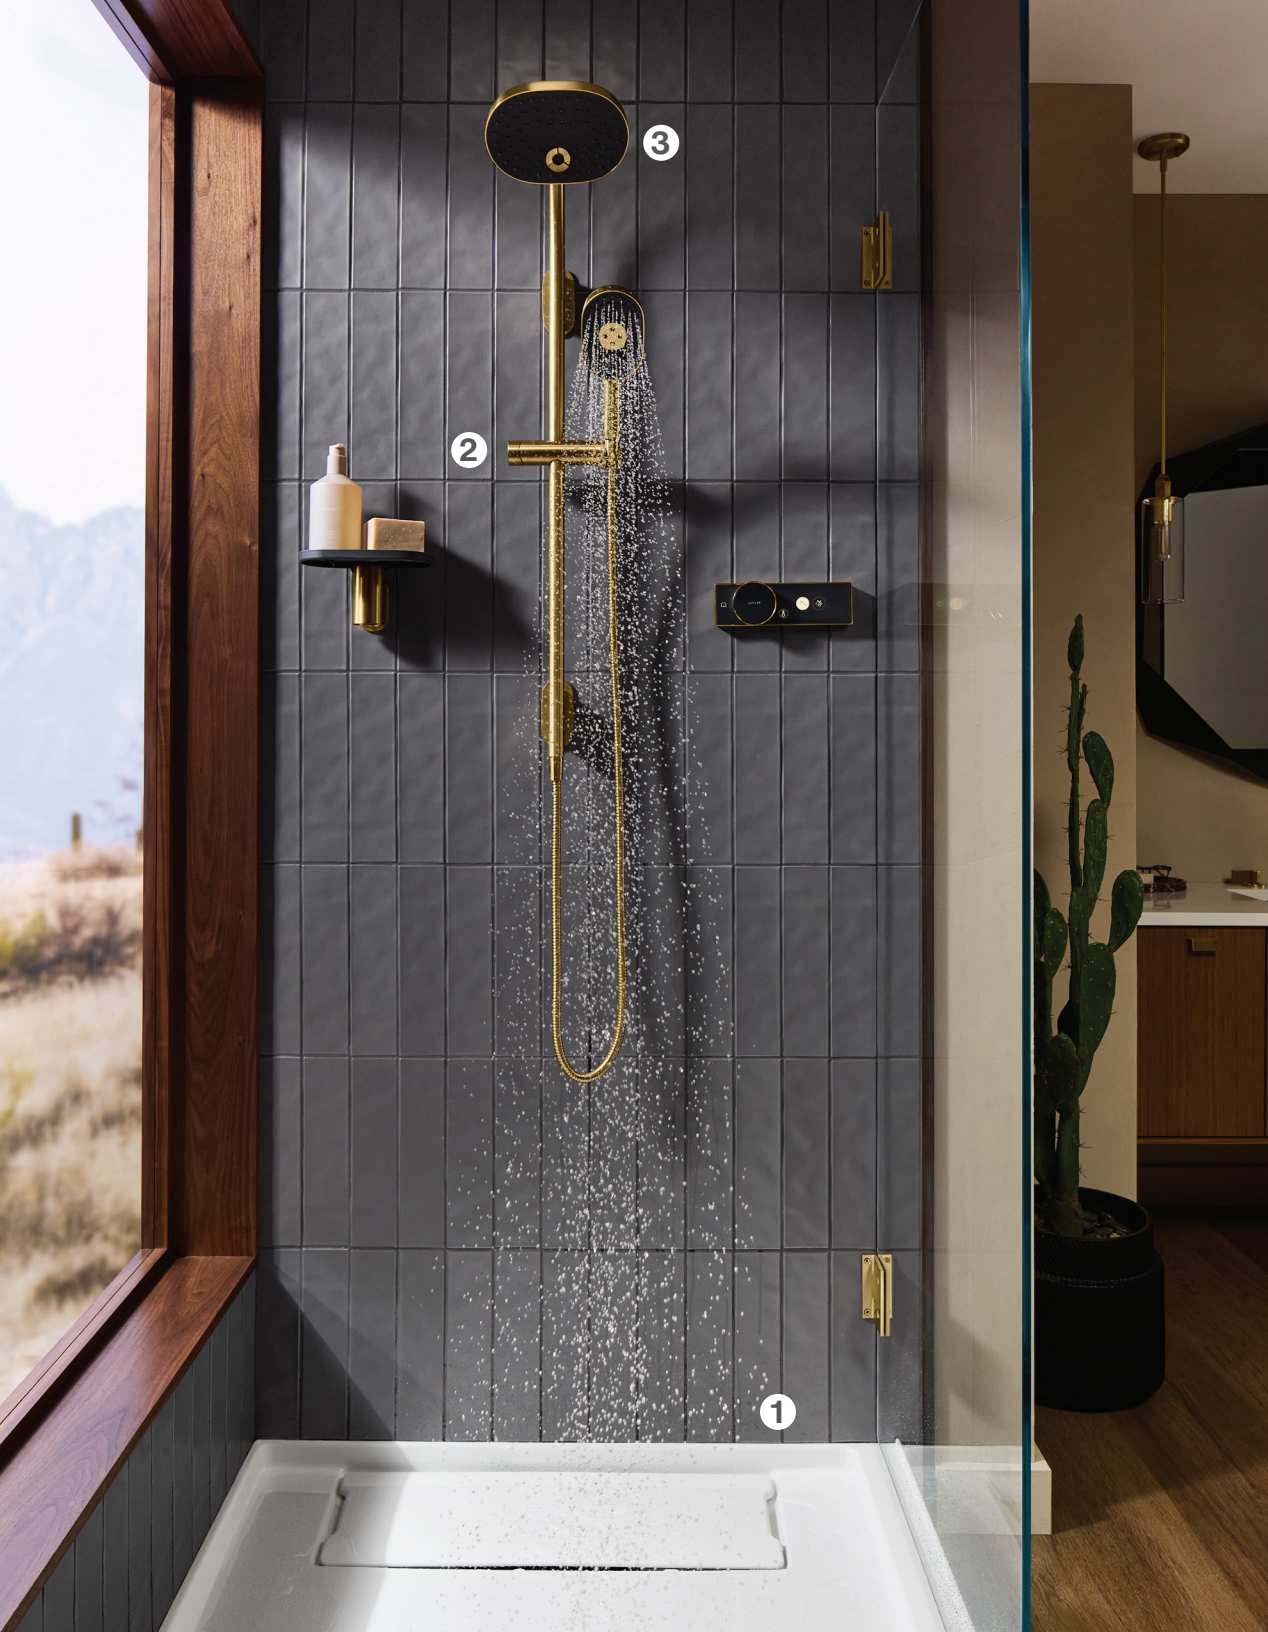

KOHLER Konnect® App

Track water savings over time, run cleaning cycles remotely, preheat your shower, and more using the KOHLER® Konnect app.

Water-Saving Warm-Up

Once water is preheated to your preferred temperature, flow pauses automatically for up to two minutes, saving up to five gallons of water.

Make It Yours

Anthem™ EvoCycle® hybrid smart showering helps you conserve water without compromise. With five base sizes to fit your bathroom, four premium finishes to match your aesthetic, and a range of KOHLER® shower components to meet your needs, your water-saving shower system is fully customizable. Sustainability that suits your unique space, style, and standards is finally here.

Specification Is Simple:

1. Choose your Anthem EvoCycle shower base.
2. Select your Anthem EvoCycle hybrid smart shower system.
3. Pair with a KOHLER showerhead or rainhead and handshower.

1. Choose Your Anthem™ EvoCycle® Shower Base

With five sizes and the choice between a left or right drain, there is sure to be an option that suits your space.

The shower base houses a concealed reservoir—where water is collected to prepare for recirculation during Cycle Mode.

Simply lift the removeable cover for easy access to the reservoir, including the reusable, dishwasher-safe filter.

The shower base is designed to channel water through a washable, reusable fine-mesh filter and collect it in a concealed reservoir for recirculation.

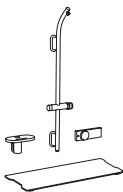

Anthem EvoCycle shower bases are available in five sizes with left and right drain configurations for each: 60" x 42", 60" x 36", 60" x 32", 48" x 36", and 48" x 32".
Shown: 60" x 42" shower base with right drain (K-33472)

2. Select Your Anthem™ EvoCycle® Hybrid Smart Shower System

Choose from four premium finishes and two shower column configurations for compatibility with either a showerhead or rainhead.

An Anthem EvoCycle digital control, integrated handshower holder, vacuum breaker with shelf, Anthem® two-port digital thermostatic valve, and ozone controller are also included.

What's in the Box:

Shower Column, Digital Control, Vacuum Breaker With Shelf, and Shower Base Cover

Two-Port Digital Thermostatic Valve

Ozone Controller

Requires Anthem EvoCycle shower base, handshower, shower hose, and showerhead or rainhead (sold separately).

Frequently Asked Questions

Installation: How much space is required for installation?

A below-floor reservoir or built-up shower floor with at least 4½" depth below the subfloor is required for installation.

Installation: Where can I place the valve and ozone controller?

The valve and ozone controller should be installed within 5 feet of the drain pump and below the bottom outlet of the shower and vacuum breaker. Refer to the installation instructions for the recommended layout.

Electrical: What type of electrical connection do I need?

You will need a dedicated 120 V GFCI-protected outlet for two power supplies in the stud framing.

Plumbing: Do I need both hot and cold water supplies?

Yes, you will need balanced hot and cold water supplies.

Plumbing: What plumbing connections do I need?

The digital valve accepts soldered connections of any size. All other components use ½" PEX tubing, except for one connection that requires ⅜" PEX tubing.

Water Compatibility: Is Anthem™ EvoCycle® hybrid smart showering compatible with well water and water softeners?

Yes, the system is fully compatible with both well water and water softeners.

Access: Do any parts need to remain accessible?

Yes. The valves and reservoir need to remain accessible for future servicing.

How to Specify

Step 1. Choose Your Anthem™ EvoCycle® Shower Base

Select from five sizes and left or right drain placement.

60" x 42" Alcove Shower Base, Left Drain/Right Drain	K-33471/K-33472
60" x 36" Alcove Shower Base, Left Drain/Right Drain	K-33475/K-33476
60" x 32" Alcove Shower Base, Left Drain/Right Drain	K-33473/K-33474
48" x 36" Alcove Shower Base, Left Drain/Right Drain	K-33477/K-33478
48" x 32" Alcove Shower Base, Left Drain/Right Drain	K-33479/K-33480

Step 2. Select Your Anthem EvoCycle Hybrid Smart Shower System

Choose between showerhead or rainhead compatibility.

Smart Shower System for Showerhead and Handshower	K-33481
Smart Shower System for Rainhead and Handshower	K-33482

Step 3. Pair With Your Choice of KOHLER® Showering Components

Select a showerhead or rainhead, handshower, and shower hose.
